

Linda Kay Akullu

Entry Level UI/UX Designer

akullukaylinda@gmail.com ✉

+256781147035 📞

Kay Linda is a passionate software developer who believes that with technology she can solve technical challenges that can make a difference in people's lives. Being a firm believer that you are the change you want to see, she has worked on projects such as a school system that uses the Django framework to keep records of students' data. Linda aims to use technology to steer change and help solve the world's most pressing problems.
